

RE : CDL Green Gallery @ SBG Heritage Museum

Swee Hong Limited is honoured to be a part of the City Development Limited (CDL) Green Gallery @ SBG Heritage Museum project.

The museum is designed to be an innovative and cutting-edge sustainable building. It will be Singapore's first zero energy green gallery that is new and purposefully built. It is conceptualised as an extension to the museum at the Singapore Botanic Gardens (SBG).

Swee Hong's contribution to this project will be in the area of supplying and installing prefabricated building structure, installing and co-ordinating building related works.
