

## **RE : Company Retreat – Kukup Fishing Village**

On 6 October 2012, around 30 staff and management embarked on a long awaited company retreat to Malaysia's Kukup fishing village. The village is famous for its fishing farms and several seafood restaurants. Most of the houses are built on stilts.

We had a 2 days 1 night arrangement which included a stay at the Red Mangrove Floating Chalet, full meals and a guide to bring us for some street shopping and a tour to a fish farm.

We also had time to incorporate team bonding activities that helped strengthened ties among staff. By the end of the trip, everyone gained a little more knowledge of each other and we certainly had lots of fun.
