

RE : 3D Built Environment Scholarship, Training and Career Fair

Swee Hong made its presence at the 3D built environment scholarship, training and career fair which was held at the BCA Academy on 15 Jan 2011. This career fair was targeted to attract job-seekers and top talents seeking fulfilling careers in the built environment. It attracted around 700 visitors during the one day event.

This was a great opportunity to showcase Swee Hong as well as to scout for future talents.
