

RE : Industry Ambassador for Construction Productivity

Mr Ong Hock Leong, our Managing Director, was appointed as the Building and Construction Authority's (BCA) Industry Ambassador for Construction Productivity.

In order to sustained the growth of the construction industry, a progressive industry leader as Mr Ong was needed to work together with BCA to raise the industry's awareness of the need to boost productivity and build capability in order to remain competitive. This program also presents an excellent opportunity for Swee Hong to forge a strong public-private partnership to drive the productivity movement in the construction industry.
