

RE : Bowl Till you Drop

On 22 July 2011, Swee Hong organized another event and this time, instead of using the voice, we had them using their hands.

Held at The Warren Golf and Country Club, the bowling as promised was another fun filled evening. Added to the excitement were challenging activities such as bowling with your opposite hand and bowling sitting down on the floor. Everyone was placed in different groups to encourage interaction between co-workers and to harness some bonding and foster stronger friendships. Two games were played in succession and the group with the highest score won. Indeed, some groups came up with the most innovative names and laughter filled the air throughout the event.
